

Annual Assessment Report for Academic Programs

The University Assessment Team advocates for the enhancement of student learning through purposeful, meaningful and feasible student tooms assessment practices. The Assessment Team seeks to collaborate with programs departments, and units to ensure that effective assessment of student learning occurs across the University. To assin meeting this goal, the Team requestet thou complete this Annual Assessment Report form to document student learning in your program. A PDF version of this completed form will be posted to the Academic Affairs Assessment website. Please note that this Annual Assessment Report form shouldbeordympleted after you have an Assessment Plan for Academic Programs forms on file with the University Assessment Team. The plan is completed once and only updated when revisions have been made to components of the plan.

- 1. DegreeLevel and Program Name: Masters in Health Seizes Administration
- 2. College/School:College of Health Professions alMthAuley School Nursing
- 3. Assessment Overview Brieflysharehow studentlearning outcomes assessments conducted within your program/departmente.g. number outcomes, examples assignments sed, and frequency of assessment).

The MHSA program has five student learning outcomes based on the HLA model. All outcomes are assessed each year. Faculty assess student learning outcomes with direct measure from assignments (signature or cumulative assignments) in various courses over the curriculum. One to three measures per outcome are used for assessment Benchmark for achievement of outcomes is 80% of students will achieve a "B" or better on signature/cumulative assignments. (Example: 80% of students will achieve a "B" or better on cumulative Portfolio Assignment)

4. Student Learning Outcomes Which student learning outcome(s) from the assessment plan filed with the University Assessment Team is/are being reported on in this report? Include the corresponding benchmark(s) for each outcome

Outcome 1 (Domain 4: Knowledge of the Healthcare Environment) No data

Evaluate the regulatory, financial and consumer complexities of the global health care environment and utilize this data to optimize the outcomes of the health care organization.
